SWETA RANI PANI

+91 9777907845 | swetaranipani05593@gmail.com / https://www.linkedin.com/in/sweta-rani-pani-039268261/

Education

- **GITA Autonomous College, Bhubaneswar** — *2021-2025*
  Computer Science and Technology — CGPA: 7.85

  Driems Science college ,Tangi — *2019-2021*
  CHSE, Senior Secondary — Percentage: 60

- **ST Teresa School , Joda** — *2019*
  ICSE, Secondary — Percentage: 54.5

Experience

- **Data Analyst Intern at Tata Steel** — *Jun 2024 – Aug 2024*
  Jajpur
  1. Completed a two-month internship at Tata Steel, creating an interactive dashboard using Tableau to analyze complex datasets, showcasing strong data visualization and analytical abilities

Web Developer Intern at GauravGo Technologies
  1. Developed and maintained responsive web pages using HTML and CSS, ensuring cross-browser compatibility and mobile responsiveness.
  2. Participated in code reviews and provided constructive feedback to peers, fostering a collaborative and high-quality development process.

Web Developer Intern at Internpe
  1. Developed an 'Amazon clone' project during my internship at Internpe, applying front-end and   back-end development skills to create a functional e-commerce platform, enhancing my expertise in full-stack web development.

Personal Projects

- **Employee Management System**
  1. Developed a full-stack Employee Management System web application using Java, Spring Boot, Spring Data JPA (Hibernate), React.js, and MySQL, ensuring efficient employee data management and seamless user experience.
  2. The Employee Management System is a software application designed to streamline and automate the processes associated with managing employees within an organization. This project enhanced my understanding of software development and system architecture.

Note App
  1. Developed a secure note-taking application using JavaScript, enabling users to write and save notes with enhanced security through code execution, ensuring accessibility exclusively via the app.
  2. Integrated robust encryption protocols within the note-taking application to ensure data confidentiality and protect user information from unauthorized access.

Bank Loan Dashboard
  1. Created a Bank Loan Report Dashboard using MySQL, Power BI, and SQL Server, efficiently handling large datasets and delivering comprehensive visual insights for data-driven decision-making.
  2. This project provides an overview, summary, and detailed view of bank loan reports. It strengthened my ability to handle large datasets and create comprehensive dashboards that facilitate data-driven decision-making.

Technical Skills

Languages: Java, HTML, CSS, JavaScript, SQL

Developer Tools: Tableau Software, VS code,

BlueJ, MySQL Workbench 8.0 CE

Soft Skills
1. Communication
2. Creativity
3. Problem Solving
4. Leadership
5. Time management
6. Strong knowledge on MS Word , MS Excel, PowerPoint

Areas of Interest: Web Development, Java Development, Object-Oriented Programming

Certification: Certified in Java programming by Wipro TalentNext, reinforcing my strong foundation in object-oriented programming and software development principles.
- Certified by Hackerrank in Java Programming.

Languages Known: English , Hindi , Odia , Bengali
